👤 PROFILE

- I am a recent graduate with a degree in Mechanical Engineering, but my true passion lies in the world of software development. Throughout my academic journey, I discovered a deep interest in coding and software design, leading me to pursue self-study and personal projects in the software field. My dedication and enthusiasm have propelled me to seek my first job opportunity in software development, where I am eager to apply my problem-solving skills and technical knowledge to contribute to innovative projects and continue my growth in this dynamic industry.

🎓 EDUCATION

BACHELOR OF ENGINEERING (MECHANICAL)   2019 – 2023 | Salem, India
SONA COLLEGE OF TECHNOLOGY

CGPA : 8.38/10

🧠 SKILLS

- HTML
- React Js
- MongoDB
- CSS
- Node Js
- Git
- JavaScript
- Express Js

📁 PROJECTS

MERN Stack To-Do Application ↗   2023/05

- Developed a responsive To-Do app using MERN stack, demonstrating strong web development skills, including database design and seamless front-end and back-end integration, enabling users to perform CRUD operations on tasks.

Weather Forecast Application ↗   2023/07

- I developed a Weather App using React.js. In this React application, Implemented real-time weather data retrieval and display, allowing users to check current weather conditions for specified locations. This project showcased proficiency in React components, API integration, and responsive web design, highlighting a strong foundation in front-end development and problem-solving skills.

Portfolio Website ↗   2023/09

- The website boasts a contemporary design that is not only visually appealing but also user-friendly. Its responsive layout ensures that it looks and functions flawlessly across various devices and screen sizes.
